

API676

THREE SCREW PUMPS

smapi series

POMPE A TRE VITI

serie smapi

API676 compliant pumps for Oil&Gas and PowerGen applications

Applications:

- Oil&Gas lube systems
- Hydro power industry
- Turbines lubrication and oil jacking
- Steam turbines boiler feeding

Pump performances / characteristics:

- Noise level: no noise, less than 60 dB(A)
- Pressure pulsation: below 0.5 bar for a 1.800 L/min pump
- Operating pressure: up to 50 bar – peak up to 80 bar
- Flows: up to 1.800 L/min
- Air emulsions: no restrictions

Configuration:

- Scerw set profile: able to handle very high viscosity liquid without noise
- Painting: any RAL or Munsell combination, according to customer requirements
- Motor pump unit: available in vertical or horizontal configuration

Testing:

- Certifications: ISO 9001:2000, ABS, BV, DNV, RINA, LLOYD, etc...
- Procedures: static and dynamic

Design & deliveries:

- In few weeks produced according to specific customer layout
- company with quality system

CERTIFIED BY DNV
